Bradley Klee

Physics PhD, Research Programmer

(913)708-0783 bradklee@proton.me

Goals and Interests

Accept and maintain a foundation of core historical standards • Promote careful thinking and original research • Grow next generation knowledge and wisdom file trees • Diversify in terms of language acquisition and publishing.

Skills

Technical: First principles analysis • Algorithm design and implementation • Reading, writing, editing and publishing • Teaching and mentoring • Laboratory friendly • Digital native • LLM friendly • AI systems.

Computer: Linux, Apple, and Windows • LLM assisted polyglot coding & transcription • Git, Dolt, Beads • SSH, SCP, FTP, tmux, bubblewrap • plain text, LaTeX, SVG, PDF • LAMP.

Business: Innovation and Product Design • Project management • Efficiency through experience • Team leader, team supporter • Risk assessment • Global scholars network • Flexible availability.

Teaching: Lesson planning • Project guidance • Computational thinking • Collaboration and competition • Standards and assessment • Mentoring • Community building.

Work Experience

Werketron Labs, Apr. 2026 – Present. Volunteerism: computer proofs, AI systems building.

Wolfram Research Inc., Jan. 2022 – Nov. 2024. Champaign, Illinois USA.

Job Title: Research Programmer.

Memberships: Office of Stephen Wolfram • Special Projects • Iterative Language Design • Communications and Outreach • Wolfram Summer School (‘22, ‘23, ‘24).

Accomplishments: Cloud published quality reference code • Wrote community bulletin board memos. • Update Mathematica • Mentor students • Create and manage presidential blog content.

Wolfram | Alpha, Sep. 2011 – Feb. 2012.

Education

PhD Physics, University of Arkansas, Jan. 2013 – Dec. 2020. Fayetteville, Arkansas USA.

Dissertation: An Update on the Computational Theory of Hamiltonian Period Functions.

Slides: An update on the theory of rotational energy surfaces (ISMS 2019).

Selected Publications: OEIS A318495 • OEIS A318245 • DihedralODE • HyperellpticODE.

Advisors: William G. Harter, Daniel Kennefick, Salvador Barraza-Lopez, Edmund Harriss.

Award: Doctoral Academy Fellowship. **Employment:** Teaching Assistant.

BS Physics, University of Kansas, 2005 – 2010. Lawrence, Kansas USA.

Interests: Liberal Arts and Sciences • Service learning • Music and poetry • Sports and exercise.

Award: University Scholar. **Employment:** NASA GSFC • Community Wireless Communications Co.
